Monte Jade Science & Technology Association Southeastern U.S.
美東南玉山科技協會

Brief History

Named after Monte Jade, the highest mountain in Taiwan, the first Monte Jade Science and Technology Association was founded by a group of high-tech Chinese-American executives in Silicon Valley, California, in February 1990. The organization, subsequently known as Monte Jade West, became a model for other regional associations bearing the name "Monte Jade," including the one in Atlanta, Georgia formed on January 16, 1993.

Mission

Monte Jade Science & Technology Association Southeastern U.S. (MJSTASE) is a non-profit organization registered in the State of Georgia. The missions of MJSTASE are as follows.

- Promote technology development and entrepreneurship
- Promote investment in business and development of business
- Promote exchange of information on current industry trends and business information among members
- Promote technology transfer, technology exchange, and create opportunities for international cooperation
- Promote technology awareness, encourage innovation and learning, and help enhance the competitive edge of the Chinese community

緣 起

以台灣最高峰「玉山」命名，玉山科技協會取其高瞻遠矚，質樸謙潤之寓意，為提倡科技及透明正向的理想。自1990年，第一個玉山協會在美國矽谷成立以來，迄今已有十多個分會成立於北美及兩岸，在地方建立人脈網絡及資訊交換。

宗 旨

美東南玉山科技協會為非營利社團。自1993年一月於亞特蘭大成立。其宗旨如下：

- 鼓勵科技創業
- 研究投資及經營之問題
- 加強會員之溝通聯繫，交換商情，掌握商機
- 提倡技術轉移，科技交流，並積極創造國際合作機會
- 推廣科技新知，獎勵創新和學習，幫助華人提升競爭優勢

Greetings from the Chairs

Min-Hsin Chen 陳敏心

On behalf of the Board of Directors of the Monte Jade Science and Technology Association Southeastern U.S. (MJSTASE), I am honored to warmly welcome you to the 33rd Annual Monte Jade Conference and Awards Ceremony.

Our organization draws inspiration from Monte Jade, the highest mountain in Taiwan — a symbol of excellence and leadership in scientific and technological innovation. In this spirit, MJSTASE is committed to fostering connections across diverse professional fields, including engineering, entrepreneurship, patent law, and finance. Our goal is to create a collaborative environment where innovative ideas can flourish, future business leaders can thrive, and young entrepreneurs are empowered to bring their visions to life.

This year, we were privileged to receive nearly 20 exceptional applications for the Young Achiever Award from across the Greater Atlanta area. These students have demonstrated not only academic excellence but also meaningful engagement in extracurricular activities and community service. We are proud to recognize their achievements and potential.

We also received several impressive proposals for the Innovation Challenge Award, each showcasing the creativity and technical insight of the next generation. Their ideas reflect the transformative power of technology in enhancing everyday life.

In addition to our regular programming, we were proud to co-host delegations from the GeoAsia Foundation and the Taipei City Government. These visits offered valuable perspectives on artificial intelligence and smart city development. We also had the pleasure of celebrating Taiwan Day at Truist Park with our sponsors, further strengthening our community ties.

As someone without a background in high technology, I never imagined having the privilege of leading this organization. I am sincerely grateful to our board members, advisors, and community partners whose unwavering support has made this journey possible.

Thank you all for your continued support. Together, we are shaping a vibrant and promising future.

With sincere appreciation,

Min-Hsin Chen

Chair, Monte Jade Southeastern Science and Technology Association

Greetings from Scholarship Foundation President

Welcome to the MJSTASE Annual Banquet and Award Ceremony!

As we gather for the 33rd Annual Conference and Banquet, we are reminded that we are entering a new era of Artificial Intelligence (AI)—one that is reshaping how we work, learn, and live.

At Monte Jade, we see AI not simply as a tool, but as a "Second Brain" —a partner that extends our memory, strengthens our reasoning, and helps us learn and act with greater efficiency. But its true potential lies in how we use it: not just for quick answers, but to support what psychologists call System 2 thinking—the slower, more thoughtful, more insightful mode of human judgment. With AI as our second brain, we can pause, reflect, and envision the long-term, moving beyond short-term gains to embrace deeper wisdom.

This is how AI can help us embark on our Second Curve—the journey from achievement to wisdom, from personal success to shared contribution. By integrating technology with human empathy, creativity, and leadership, we can chart a new path where innovation is not only faster, but also more meaningful.

Allan Lin 林筠卿

This year, we are proud to introduce the Monte Jade Innovation Challenge (MJIC) in its expanded form. More than a competition, it is a challenge to our next generation—a call to tackle real-world problems with bold ideas and transformative technologies. From AI-enabled healthcare to sustainable engineering and social-impact projects, these young innovators are shaping solutions that will define the decades ahead.

We also celebrate the Young Achiever Awards (YAA), which provide scholarships to high school students who excel not only in academics and STEM, but also in leadership, service, and creativity. Their achievements remind us that while AI can amplify knowledge, it is the human spirit—curiosity, compassion, courage—that drives true progress.

Tonight, as we honor our awardees, we also honor our sponsors, mentors, and community partners whose support makes this possible. Together, we are building a future where AI empowers us to think more deeply, act more wisely, and live more generously—a future where technology serves humanity, and humanity gives technology its higher purpose.

Thank you for joining us. May this evening inspire us all to embrace the new era of innovation—where the Second Brain supports the Second Curve, and where thoughtful insight leads us toward wisdom and shared growth.

Sincerely,

Allan Lin

Monte Jade Science and Technology Association
Southeastern US

Dear Members of MJSTASE,

Congratulations on celebrating 33 years of outstanding achievement in the Southeastern region.

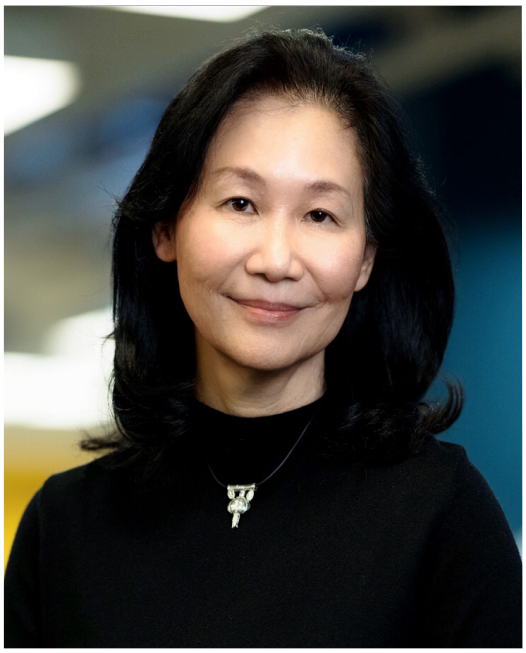

In 2025, MJSTASE continues to demonstrate exceptional leadership in advancing innovation, entrepreneurship, and cultural enrichment. From honoring Taiwanese heritage to championing AI-driven smart city initiatives, your efforts have played a vital role in connecting technology with community impact.

As you mark this important milestone, I commend you for your unwavering commitment to promoting technological advancement, leadership development, and cross-cultural exchange. Your work strengthens the ties between Taiwan and the Southeastern United States and continues to inspire the next generation of leaders.

Sincerely,

Jared Lin
Director-General
Taipei Economic and Cultural Office in Atlanta

A Message from Ning Ning Yu , Chairperson of Monte Jade Global

陳敏心理事長及美東南玉山科技協會的朋友們，您好：

我以全球玉山科技協會理事長的身分，很榮幸受邀參加美東南玉山科技協會 2025 年會晚宴。特別是今年的「AI 與創新專題」，從 Dr. Theresa Rohr-Kirchgraber 對人工智慧在醫學教育的實務應用，到創新競賽團隊展示以 AI 為核心的成果，充分展現了 AI 的落地實力與啟發年輕一代的力量。雖然因行程無法親臨現場，心中難免遺憾，但我深深敬佩主辦單位的用心與前瞻，並衷心祝福這場盛會圓滿成功。

我一直欽佩美東南玉山科技協會，因為你們真正用行動支持年輕世代的成長與夢想。不論是透過研討會、講座，或是創新競賽與青年成就獎，你們為新一代打開了通往未來的大門。更難得的是，美東南玉山不僅提供資源，還搭建了跨世代交流的平台，讓年輕人能直接向資深領袖學習，進而勇敢追夢、勇於創新，並自信地走向國際舞台。

全球玉山秉持「全球華人高科技與經濟交流、互相幫助」的理念，自三十多年前成立以來，便由各分會理事長與幹部共同組成，支持各地分會發展，並將玉山精神推廣至全球。目前除了美東南玉山，還有美西、台灣、南加州、華盛頓州、新英格蘭、香港及歐洲等分會。各地協會雖獨立運作，但全球玉山始終是彼此的橋樑與後盾。

隨著 全球 AI 發展的迅猛推進，以及 台灣積極打造 AI 基礎建設，玉山各分會在資訊、資源與經驗上的交流更顯重要。美國在 AI 軟體、模型與應用方面展現驚人的創新速度，而台灣則在半導體、電子、電動車零組件與醫療生技等領域具備世界級優勢，並擁有完整的硬體製造與供應鏈生態。若能將美國在 AI 軟體與應用創新 的強項，與台灣在 硬體基礎與產業鏈整合 的實力相結合，將形成強大的互補效應，驅動全球 AI 發展。

在這場翻天覆地的 AI 革命中，危機與機會並存。我期許玉山科技人跨越地域，促進合作，融合台灣與美國的優勢，在民主與和平的價值下，共同成為 AI 時代的重要力量，為台灣與世界創造更美好的未來。

總結而言，美東南玉山不僅是全球玉山的重要分會，更是核心力量之一。你們的努力與成果，對全球玉山的連結與成功具有不可取代的地位。
敬祝大會順利、圓滿成功.

俞寧寧 全球玉山科技協會理事長

美東南玉山陳理事長敏心、林會長筠卿暨全體會員：

值此美東南玉山成立三十三週年之際，謹致以最誠摯的祝賀！三十三年來，美東南玉山深耕社區，凝聚眾人的努力與熱情，也見證青年朋友在專業領域持續精進、勇於追求卓越的成就。

展望未來，相信美東南玉山將持續成為青年交流、學習與合作的重要平台，鼓勵更多年輕人投入專業成長與社會服務，共同書寫社區發展的新篇章。

在這特別的時刻，本人暨台灣玉山全體理監事會，謹致以最誠摯的祝賀。祝福美東南玉山社區持續蓬勃發展，青年學子學業精進，並祝全體會員事業順利、身心康泰。願大家以充滿活力與希望的姿態，共同迎接美好的明天！

台灣玉山科技協會 理事長童子賢

Annual Banquet Keynote Speaker

COVID-19 and Emerging Cancer Treatments Exploring innovative vaccine technology and medical advancements

Paul Kirchgraber, M.D., MBA

The executive vice president and chief executive officer of Labcorp Drug Development November 2019 to May 2023. EVP and Senior Advisor to the CEO through September, 2023. He has been on the board of Association of Clinical Research Organizations (ACRO) since 2019 and served as the chair. He has held multiple leadership positions.

An advocate for advancing women in medicine, he is a lifetime member of the American Medical Women' s Association and received the Dr. Larry Zaroff Man of Good Conscience Award in 2020 from AMWA in recognition of his work as a champion and supporter of women physicians.

Graduating from Weill-Cornell University Medical School, he interned in internal medicine at Case Western Reserve/University Hospitals and completed pathology residency and fellowship. He received his MBA from SUNY Binghamton and practiced medicine in Syracuse, NY.

He wants to be part of the solution that brings truth and science into the discussions on health and community engagement.

Annual Banquet Afternoon speaker

Theresa Rohr-Kirchgraber, M.D., M.A.C.P., F.A.M.W.A

A California native, Dr. Theresa Rohr-Kirchgraber earned her undergraduate degree from California State University, Long Beach, and her medical degree from Weill Cornell Medical College. She completed her residency training in Internal Medicine at University Hospitals of Cleveland. In March 2021, she joined the faculty of the Augusta University/ University of Georgia (AU/UGA) Medical Partnership as a Professor of Medicine and Clinician Educator.

Dr. Rohr-Kirchgraber is a nationally recognized physician advocate who has led impactful efforts to improve the health of women and their families. She has held numerous leadership positions, including serving as the first Hispanic President of the American Medical Women' s Association (AMWA), Vice Chair of the American Medical Association (AMA) Women Physicians Section, and member of both the AMA Minority Affairs Governing Council and the Dissemination and Implementation Steering Committee for the Women' s Preventive Services Initiative with the American College of Obstetricians and Gynecologists (ACOG). She is also an inaugural Fellow of AMWA and a recipient of multiple awards for excellence in leadership and teaching.

As a physician from an underrepresented background in medicine, Dr. Rohr-Kirchgraber is deeply committed to increasing diversity in healthcare. Through the development of inclusive programs and mentorship initiatives, she supports physicians and trainees in finding fulfillment in their careers. Her clinical expertise lies in primary care for adults and adolescents, particularly those managing chronic conditions. She is equally dedicated to preparing the next generation of physicians with a strong foundation in clinical practice and a deep understanding of the social determinants that influence health and well-being.

This year, the Monte Jade Science and Technology Association Southeastern U.S. is honored to welcome Dr. Theresa Rohr-Kirchgraber as a distinguished speaker for the Innovation Challenge Seminar, where she will share her insights on the evolving role of artificial intelligence in education through her presentation: "AI in Medical Admissions and Education."

Masters of Ceremonies

Rachel Lee (李芷媗) is a recent graduate of Emory University, where she earned a Bachelor of Science in Biology with High Honors and completed a minor in Music.

During her time at Emory, Rachel served as the Assistant Principal Violist of the Emory University Symphony Orchestra and co-president of Biology Majors at Emory (BioME). She was also actively involved on campus as an Orientation Leader, Research Ambassador, and volunteer at the Winship Cancer Institute. Her academic interests led her to conduct research in antiviral drug resistance, and she is currently employed as a Research Specialist at the Emory School of Medicine.

In her free time, Rachel enjoys taking walks, playing the viola, reading science fiction novels, and exploring new restaurants.

She plans to pursue a career in medicine, with a specialization in infectious diseases.

Ying-Ju Ritter (黃瀅如) was born in Taipei, Taiwan. She holds a Ph.D. in Biology from Georgia State University, as well as an M.S. and B.S. in Agricultural Chemistry from National Taiwan University.

Ying-Ju currently works as an early childhood educator and also teaches at the Atlanta Chinese School and the Taiwan Center for Mandarin Learning. Beyond her professional roles, she is an active community volunteer, deeply engaged with Taiwanese-American associations in the Metro Atlanta area. She has also served for several years as an Emcee for the OCAC' s Lunar New Year Festival.

Ying-Ju is the proud mother of Julian Ritter, a recipient of the 2025 Young Achiever Award, and Marie Ritter.

2025 Monte Jade Innovation Competition Award 玉山創意競賽

「玉山創意競賽」（MJIC）於2018年由美東南玉山科技協會創辦，旨在為大專院校學生和青年學者提供一個培養創造力、批判性思維與創業技能的平台。提升與鼓勵參賽者對科技領域的興趣及投入，激發其面對日常生活和實務挑戰時的好奇心，並運用所學專業結合創意，發揮實作與設計能力以探索和研發各項創新解決方案。2025年的獎由Winmate贊助。

Established in 2018, Monte Jade Innovation Competition (MJIC) is an annual innovation contest aimed at providing a forum for college students and young professionals to foster their creativity, critical thinking, and entrepreneurship skills. We encourage the participants to turn their bright ideas into prototypes, business plans, or commercial products. This year, the prizes are sponsored by Winmate, Inc.

2025 MJIC Selection Committee

Mr. Bruce Chen 陳文慶
Retired Former Healthcare Software Industry Entrepreneur

2025 MJIC Award

THE ORBIT ACTUATOR - VERSATILITY IN MOTION

C&P R&D was founded by Nikhil Pai (CEO) and Bryce Cianciotto (CTO). Nikhil graduated with his Master' s in Mechatronics from Kennesaw State University, and Bryce is pursuing his undergraduate degree in Mechanical Engineering from the same school. While Nikhil specializes in electromechanics, embedded systems, and rapid prototyping, Bryce excels in mechanical design, robotics, and business development. They both work closely with mentors and advisors across hardware, manufacturing, product development, and business.

C&P R&D - ORBIT ACTUATOR: A NEW STANDARD IN ROBOTIC MOTION

Humanoid robotics is at an inflection point. Artificial intelligence, computer vision, and sensors are advancing rapidly, but the mechanical systems that are supposed to be bringing these robots to life are serving as their biggest bottleneck. At the core of this problem are the joints. Shoulders, hips, wrists, ankles, and necks in the human body are all ball joints. They allow us to move fluidly and naturally in three axes of motion. Robots, by contrast, approximate this motion by stacking motors together in orthogonal arrangements. This design philosophy is like stacking elbows to build a shoulder. The result is bulky, complex, and contains lots of pinch points and mobility limitations that reduce the usefulness of humanoid systems.

C&P R&D has developed the Orbit Actuator, a compact actuator that functions like a true ball joint. Each unit provides three degrees of freedom in a single, sealed package with a hemispherical work envelope and an integrated through-hole for routing cables. Instead of combining separate motors, encoders, controllers, and mounting hardware, to achieve multi-axis motion, the Orbit Actuator consolidates all of these into one standardized unit. By offsetting the motors away from the joint of the actuator, the actuator reduces inertia, improves mobility, and achieves a smaller, more efficient design.

Technical Benefits

The Orbit Actuator addresses the mechanical challenges of humanoid robotics through several innovations:

- **Three-axis actuation in one unit**

Traditional robotic joints require three independent motors and their corresponding gearboxes, sensors, and mounts. The Orbit Actuator delivers the same functionality in a single device, reducing part count and eliminating many sources of misalignment or wear.

- **Hemispherical range of motion**

By mirroring the geometry of biological ball joints, the actuator offers a natural hemispherical workspace. This allows humanoid robots to achieve lifelike arm swings, shoulder rolls, wrist rotations, or ankle pivots that are difficult or impossible with stacked single-axis systems.

- **Through-hole design**

Many robotic joints are constrained by external wiring, which restricts range of motion. The Orbit Actuator integrates a hollow core that allows cables, fluid lines, or optical connections to pass through the joint itself. This makes the design cleaner and more robust while preserving mobility.

- **Remote actuation and compact form factor**

By offsetting the motors from the axes of motion, the Orbit Actuator reduces mass at the joint. This lowers inertia and enables faster, smoother, and more efficient movement, closer to human biomechanics.

2025 MJIC Award

- **Integrated electronics**

Each actuator contains a custom pcb with a suite of sensors. These allow for precise, real-time feedback, eliminates the need for bulky external controllers, and make integrating the system easy.

Applications

The Orbit Actuator can be applied across nearly every joint in a humanoid platform: shoulders, hips, wrists, ankles, neck, and waist. Beyond humanoids, it is also suitable for robotic arms, quadrupeds, prosthetics, exoskeletons, and more. Any system that requires compact, reliable, three-axis motion can benefit from this design.

Development Progress

C&P R&D has built and tested multiple iterations of the Orbit Actuator. The team has also filed a provisional patent to protect the novel aspects of the design, including the remote actuation approach and the integration of multiple axes into a single compact package. Early engagement with robotics developers has confirmed that this approach addresses many of the pain points currently slowing the adoption of humanoid platforms.

Why It Matters

Robotics has long promised to deliver machines that can operate seamlessly in human environments, but the mechanical foundation needed to achieve that dream continues to lag behind. Joints that are bulky, complex, or limited in motion prevent humanoids from achieving their real potential. The Orbit Actuator provides a direct solution by replicating the natural ball joints of the human body. By simplifying the mechanical, electrical, and software challenges of building multi-axis joints, it clears the way for more agile, efficient, and lifelike robots.

The future of humanoid robotics depends not only on advances in AI and sensors but also on the hardware that makes movement possible. With the Orbit Actuator, C&P R&D aims to set a new standard for robotic motion systems; one that is efficient, compact, and inspired by biology.

2025 MJIC Award

BOB: A QUADRUPED ROBOT NAVIGATION SYSTEM FOR WAREHOUSE PICKING

As e-commerce drives higher order fragmentation and warehouses face increasing labor shortages, traditional picker-based operations are hitting bottlenecks in both efficiency and safety. To address the challenges of path inefficiency, navigation errors, and lack of real-time visibility, our team designed "Bob," a quadruped robot system that serves as a mobile navigation assistant for warehouse pickers.

This project is developed by a graduate student team from Georgia Tech' s Supply Chain Engineering program, composed of Weilan Cao, Yuchen Hsu, and Olive Wang. Combining technical, operational, and integration expertise, the project explores how quadruped robots can be practically deployed in warehouse environments to support picking accuracy, reduce time waste, and enhance human–robot collaboration.

Built on the Unitree quadruped robot platform and paired with an industrial-grade Winmate controller, Bob communicates via Bluetooth or Wi-Fi depending on range and environment. We developed a lightweight Warehouse Management System (WMS) interface using API connections to receive picking tasks. Once the robot receives an order list, it dynamically generates an optimal walking path and guides the human picker to each shelf location using multimodal signals (voice, lights, or display).

To ensure safe deployment in live warehouse settings, the system includes intelligent obstacle avoidance and worker-aware behavior. Bob slows down or halts when detecting people or carts, respects safety boundaries (e.g., forklift zones), and yields in narrow aisles to prevent collisions. These features are designed to enable smooth operation without disrupting ongoing human workflows.

In early prototyping, we established a test zone with 10–20 shelves, marked safety lines, and integrated basic WMS data via a tablet relay module. Key success metrics included:

- Zero collision with humans, shelves, or carts
- Reduced picking time compared to manual benchmark
- Full compliance with safety paths and restricted zones

Our prototype demonstrated that the robot can safely and effectively support picking operations, guiding workers in real time and dynamically adapting routes based on order changes.

Importantly, Bob is not just a "guide." It has the potential to serve as a mobile WMS terminal, offering real-time task updates, reporting stockouts or congestion, and even supporting scanning or confirmation. Future development can expand its role into replenishment, cycle counting, and warehouse data collection, enabling a flexible and scalable robotic solution for logistics operators.

This project envisions a future where mobile quadruped robots are seamlessly integrated into warehouse processes—not replacing humans, but enhancing their efficiency and safety. Our vision combines practical deployment, API-driven connectivity, and human-aware robotics to demonstrate a new paradigm in warehouse digitalization.

2025 MJIC Award

Weilan Cao is a graduate student in Supply Chain Engineering at Georgia Tech, with prior internship experience at JD.com, Unilever, and Shopee. Her work focuses on network optimization, inbound planning, and warehouse digitalization.

Yu-Chen (Daphne) Hsu is a graduate student in Supply Chain Engineering at Georgia Tech, with internship experience at Winmate Inc. and EY. Her background includes logistics coordination, cross-border freight optimization, and warehouse operations planning, with a focus on integrating project management and digital tools into supply chain solutions.

Olive Wang received the master' s degree in Supply Chain Engineering from Georgia Tech. She has worked as an outbound team specialist at Cirro Global.

The 33rd Annual Conference
美東南玉山科技協會2025年會

33rd

美東南玉山科技協會謹此向融程團隊—Julie Hsieh, Vivian, Yu, Anderson, Elva Cheng, Cindy Chang, Julia Cheng 及 Allan Lin —致上最誠摯的謝意。感謝貴團隊於本年度年刊之美術設計、編輯與製作過程中所展現的高度專業與辛勞付出。

The Monte Jade Science and Technology Association South-eastern U.S. extends its sincere appreciation to the Winmate team — Julie Hsieh, Vivian, Yu, Anderson, Elva Cheng, Cindy Chang, Julia Cheng, and Allan Lin — for their professional contributions and dedicated efforts in the design, editing, and production of this year' s yearbook.

2025 MJSTASE Young Achiever Award 玉山科技青年獎

Outstanding Award

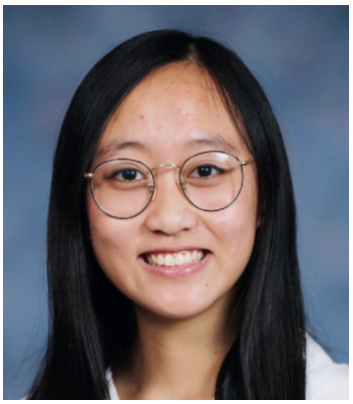

Ella Liu is a senior at Alpharetta HS, Governor' s Honor Program finalist, University of Pennsylvania, The Wharton School LBW scholar; founder of nonprofit organization, InspireKids, teaching public speaking and dancing, locally and globally; owner of Ballet Essentials & Beyond; member of Mayor' s Advisory Council; President of MSDA Jr. Staff; Student Council Executive Board, 1st winner of best social media in state; top 3 of GFCA State Pro Con Challenge. Ella is also internationally recognized as a ballerina, placing 1st place at YAGP and BGPV, and winning competitive scholarships; and MC of major Chinese community events annually. Ella plans to pursue finance.

Excellence Award

Evan Loo is a 17-year-old senior at Brookwood High School. He serves as the captain of the school' s state-champion Swim & Dive Team and has been playing the viola for seven years. Dedicated to giving back to his community, Evan is the president of Brookwood' s Beta Club and volunteers at both a pediatric dentistry office and a nephron/kidney dialysis center.

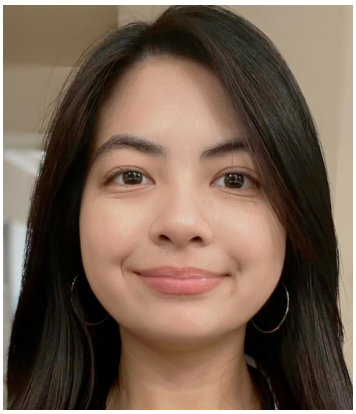

Passionate about the field of medicine, he founded the HOSA chapter at Brookwood High School to inspire interest in healthcare among his peers. Evan aspires to pursue a career in medicine as an anesthesiologist. Outside of academics and service, he enjoys collecting Pokémon as a hobby.

Excel 360 Award

Crystal Zhang is a student at The Westminster Schools, passionate about global affairs, public service, and dance. Crystal competes on the All-American Model United Nations team, as the only student from Georgia, and leads Westminster' s Model UN as President. She previously interned at the Fulton County Superior Court and on the Michelle Au Georgia House campaign, and is a non-profit founder of Assistness, a nonprofit supporting underprivileged youth, earning her a Gold recipient of the Presidential Volunteer Service Award. Crystal is also an award-winning dancer and choreographer, and the President of Westminster' s Dancecats.

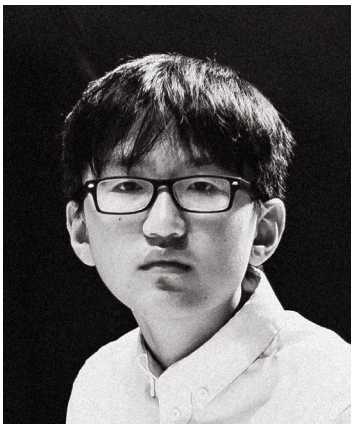

2025 MJSTASE Young Achiever Award 玉山科技青年獎

Special Talent Award

Alicia Wang is a senior at Peachtree Ridge High School and serves as historian for the National Honor Society, where she oversees social media, visual communications, and website design. An award-winning visual artist, she has been recognized in both local and national competitions and was named a semifinalist in the 17th International Art Competition.

In addition to her artistic achievements, Alicia is an accomplished musician. She plays both piano and guzheng, earning top honors in GMTA, NDMTA, NFMC, and NFMTA competitions, and regularly performs at festivals, school events, and public venues. Outside of her academic and artistic pursuits, Alicia enjoys singing karaoke and spending time with family and friends.

Special Talent Award

Mitchell Kuang is a junior at Duluth High School who balances strong academics—particularly in math and science—with a passion for music and art. A pianist of ten years, first-chair cellist, and award-winning composer, Mitchell has performed on stages across Georgia and beyond. His artistic interests also extend to sketching and watercolor, which fuel his creative expression.

Beyond the arts, Mitchell demonstrates leadership through community service, organizing concerts at senior homes, tutoring, and volunteering with special needs children. Whether performing, composing, or giving back, he is driven by curiosity, creativity, and a desire to connect with others.

Leadership Award

Evan Lee is a Senior at The Lovett School. He debates on the national circuit and is ranked first in the state of Georgia for Lincoln-Douglas. At school, he' s interested in researching Taiwanese identity, statistics, and philosophy. Outside of school, he enjoys eating and playing with friends.

2025 MJSTASE Young Achiever Award 玉山科技青年獎

Community Service Award

Aniston Zhang is a senior at Chattahoochee High School in Johns Creek, GA. She has been dancing and playing the violin since the age of five, participating in youth orchestras and dance competitions throughout her journey. Violin has become an integral part of her life, teaching her perseverance and confidence through practice and performance in youth symphonies.

Beyond the arts, Aniston is dedicated to service, volunteering to help organize events for children with special needs and to promote community engagement. These experiences have shaped her patience, leadership, and appreciation for others. She aspires to continue making a difference through her music, dance, and volunteer work.

STEM Award

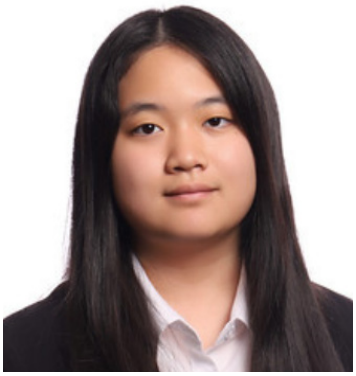

Julian Ritter is an eleventh-grade student at Walton High School, where he is enrolled in the Walton STEM Academy' s Biomedical Science Pathway. A third-degree black belt and Life Scout in the Boy Scouts, Julian demonstrates dedication, discipline, and leadership both inside and outside the classroom.

For more than four years, Julian has been an active member of FASCA, serving as Historian and managing the organization' s website and promotional videos. Within FASCA, he has also taken on cultural leadership roles, serving as captain of the Third Prince Dance Team and performing in the Lion Dance, Dragon Dance, and Music Teams.

Julian' s academic and extracurricular involvement extends further through his participation in the Walton Math Team, crystallography club, chemistry club, and RPG club, reflecting his diverse interests in science, problem-solving, and creativity.

2025 MJSTASE Young Achiever Award 玉山科技青年獎

Inspiration Award

Jenbao Perng is a senior at Innovation Academy, where she serves as the founder and president of the school' s Chamber Orchestra and general music clubs. She is also an active leader in HOSA–Future Healthcare Professionals, the Science National Honor Society, and the Biology Olympiad.

Beyond school, Jenbao is deeply engaged in her community. She volunteers at local Taiwanese events and embraces opportunities to learn more about her culture. Fluent in both Taiwanese and Mandarin, she has also used her language skills to emcee community events.

Jenbao plans to pursue a career in the healthcare field and is currently working toward her Pharmacy Technician certification and license.

Monte Jade Merit Award

Daniel Yen is a Senior at Paul Duke STEM high school. He is thoughtful, methodical and focused towards anything he faces. He has experience in managing and adapting to challenges to achieve desirable outcomes. He sets his sights on a degree in Chemistry and a Pharmaceutical related job. He invests his time pursuing academic goals, volunteering responsibilities, doing Archery and Karate. He additionally reads articles and watches education related videos.

Monte Jade Merit Award

Ethan Wu (吳天壬) is a senior at North Gwinnett High School, where he is enrolled in CHARGEnorth, a rigorous STEM program for selective students. In addition to excelling academically, he competes on the varsity Cross Country and Track & Field teams, developing discipline and perseverance.

Ethan is deeply committed to service. He volunteers as an SAT Math tutor and teaches English to elementary students in Taiwan through FASCA. He also teaches Lion Dance and performs both lion and dragon dances at numerous statewide events, helping to promote and preserve Chinese culture. His dedication has earned him the Gold President' s Volunteer Service Award three times.

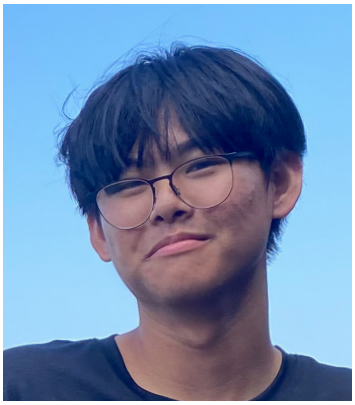

In his free time, Ethan enjoys playing guitar and spending time with his dad and friends on the pickleball court.

2025 MJSTASE Young Achiever Award 玉山科技青年獎

Monte Jade Merit Award

Jeremy Wan is a high school student at Wesleyan School with a 4.27 GPA, excelling in academics, leadership, and extracurriculars. He is a multi-award winner, including the Gold Medal President' s Volunteer Service Award and recognition from the Foreign Language Association of Georgia. Jeremy co-founded and co-leads the Debate Club, is a leader for the Formosa Association of Student Cultural Ambassadors (FASCA), and has held main lead roles in school theater productions. He is actively involved in community service, mission trips, and various STEM and athletic teams. Jeremy' s STEM aptitude is evident through his finalist position in System Control for TSA Georgia State and a 3rd place team award at MathCounts with skills in performing arts, public speaking, problem-solving, leadership, and teamwork.

Monte Jade Merit Award

Joshua Ma (馬歐文) is a senior at PeachTree Ridge Highschool. He also attends the Chinese Cultural School of Atlanta and has been ranked first in his class for 3 years in a row. He serves as the FASCA-Atlanta President for two terms, President of his school' s National Chinese Honors Society, and the Student Council President of the Chinese Cultural School of Atlanta. His passion drives for cultural presence such as performing lion dance and dragon dance at many local cultural events. In his extra time he spends time learning the guitar on his own and working out and stretching.

07/14/2025 亞橋基金會率團訪問亞特蘭大 推動AI智慧製造與高端科技交流合作
GeoAsia Foundation Leads Delegation to Atlanta to Advance AI Driven Smart Manufacturing and Innovation Partnerships

亞橋基金會由藍濤亞洲總裁黃齊元創立，今年 6 月與東海大學及美國喬治亞理工學院合作，在台中啟動「智慧製造與 AI 實驗園區」，推動教育、研發與應用整合。為深化合作，黃總裁於 2025 年 7 月 14 至 17 日率團訪問亞特蘭大，與喬治亞理工核心 AI 實驗室及州政府官員會談，探討未來交流。

訪團成員包括東海大學校董吳清邁博士、圖資長楊朝棟博士、推廣部主任蔡坤霖博士及台灣產業界與媒體人士。7 月 14 日晚間舉行歡迎晚宴，黃總裁提出於東海校園打造「高端科技城中城」願景，並分享合作歷程，激勵校友。7 月 14、15 日，訪團與當地華人代表就文化、教育及產業生態深入交流。亞橋基金會將持續推動國際鏈結，助力東海智慧製造與 AI 發展。

黃齊元總裁招待玉山及僑界人士共進晚餐

The Asia Bridge Foundation, founded by FCC Partners President Charles Huang, partnered with Tunghai University and the Georgia Institute of Technology in June to launch the "Smart Manufacturing and AI Innovation Park" in Taichung, integrating education, research, and application. To further collaboration, Mr. Huang led a delegation to Atlanta from July 14 to 17, 2025, where they met with Georgia Tech' s core AI labs and state government officials to discuss future exchanges.

Delegation members included Dr. Wu Ching-Mai, Board Director of Tunghai University, Dr. Yang Chao-Tung, Chief Information Officer, Dr. Tsai Kun-Lin, Director of Extension, along with industry leaders and media representatives from Taiwan. On the evening of July 14, a welcome banquet was held where Mr. Huang presented the vision of building a "High-Tech City within a City" on Tunghai' s campus and shared the story of securing this collaboration, inspiring alumni. On July 14 and 15, the delegation engaged in in-depth exchanges with local Chinese representatives on culture, education, and industry ecosystems. The Asia Bridge Foundation will continue promoting international linkages to advance Tunghai' s smart manufacturing and AI development.

08/10/2025 開學季來臨　專家呼籲高中生及早規劃大學申請
Experts Urge Early College Planning as School Year Begins

新學年開學，高中生展開學習旅程，專家建議從九年級起規劃大學申請以提升競爭力。美東南區玉山科技協會與豐盛基金會於亞特蘭大The Standard Club舉辦講座，學生場由哥倫比亞大學Dr. Lucie Vágnerová主講，強調提早探索興趣、參與課外活動及準備標準化測驗與申請文書；家長場由豐盛基金會邱婷蘭董事長說明教育費用趨勢、獎助學金與FAFSA/CSS準備要點。講座由海外青年文化大使協會與世界華人工商婦女協會亞特蘭大分會協辦，協助華人家庭掌握申請關鍵。(本文摘自世界日報)

As the new school year begins, experts advise high school students to start planning college applications from ninth grade to boost competitiveness. The Monte Jade Science and Technology Association Southeastern U.S. and the Prosperity Foundation held a seminar at The Standard Club in Atlanta. Columbia University' s Dr. Lucie Vágnerová guided students on exploring interests, extracurriculars, and preparing for standardized tests and essays, while Prosperity Foundation Chairperson Ms. Chiu Ting-Lan briefed parents on education costs, scholarships, and FAFSA/CSS preparation. Co-organized by the Overseas Young Cultural Ambassadors Association and the World Chinese Women Entrepreneurs Association Atlanta Chapter, the seminar helped Chinese-American families navigate the college application process.

TRAVEL NONSTOP FROM TPE TO SEA.

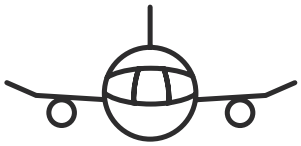

As Seattle's largest global airline, Delta is proud to expand our Asia network with daily nonstop service from Taipei to Seattle launching June 7, 2024.

TPE-SEA: AN EXCITING DELTA FIRST

This route launch marks the first time Delta has flown nonstop from Taipei to the U.S., connecting APAC to our Seattle hub.

CABIN EXPERIENCES FOR EVERYONE

TPE-SEA service is available on an A339, featuring Delta One® suites, Delta Premium Select, Delta Comfort+ and Main Cabin onboard experiences.

GROWING OUR TRANS-PACIFIC NETWORK

This year-round service opens the doors to even more trans-Pacific travel to Seattle, combined with our existing routes from Incheon (ICN), Tokyo (HND) and Shanghai (PVG).

SEATTLE: THE FIRST STOP TO GLOBAL TRAVEL

Delta offers more than 160 daily departures to more than 50 destinations across the world, connecting APAC customers to more U.S. destinations.

WE LOOK FORWARD TO CONNECTING YOU WITH THE WORLD.

AAPI Forum_BlockChain & Digital Currency

2025年5月1日，美東南玉山科技協會與亞特蘭大香港協會於亞特蘭大Buckhead舉辦「數位資產與金融的未來」論壇，吸引近50位金融科技專業人士參與。活動由張舒副主席策劃，Carol Lin主持，邀請Crypto.com的Wen Jiang、Lystar Group合夥人Tracy Lai及金融專家Henry Yu。論壇探討比特幣儲備、RWA代幣化、穩定幣、監管趨勢與機構採納，並剖析市場風險與安全議題。主辦單位表示將持續舉辦系列活動，關注DeFi與監管政策發展。

On May 1, 2025, the Monte Jade Science and Technology Association Southeastern U.S. and the Hong Kong Association of Atlanta co-hosted the forum "The Future of Digital Assets and Finance" in Buckhead, Atlanta, drawing nearly 50 fintech professionals. The event was planned by Vice Chair Catherine Zhang and moderated by Carol Lin, featuring guest speakers Wen Jiang from Crypto.com, Tracy Lai, Partner at Lystar Group, and financial expert Henry Yu. Topics included Bitcoin reserves, tokenization of real-world assets (RWA), stablecoins, regulatory trends, and institutional adoption, with in-depth discussion on market risks and security. Organizers announced plans for future events to further explore DeFi and evolving U.S. regulatory policies.

09/06/2025 亞特蘭大首屆「台灣日」隆重登場 玉山科協攜手僑界共襄盛舉
Atlanta Hosts Inaugural "Taiwan Day" Monte Jade Science & Technology Association Joins Hands with the Community to Celebrate

2025年9月6日，亞特蘭大首屆勇士隊「台灣日」盛大舉行，美東南區玉山科技協會（MJSTASE）邀請歷年贊助夥伴共襄盛舉，感謝長期支持。亞特蘭大台北經文處林主恩處長受邀開球，象徵台灣社群在美南影響力提升。活動結合體育與文化交流，凝聚僑界向心力，展現玉山科協推動科技、促進文化連結與社區參與的使命。

參與「台灣日」活動的僑界社團代表與友人齊聚一堂，熱情合影留念。

On September 6, 2025, Atlanta celebrated its first-ever Braves "Taiwan Day." The Monte Jade Science and Technology Association Southeastern U.S. (MJSTASE) invited longtime sponsors to join in appreciation of their continued support. Director-General Lin Chu-En of the Taipei Economic and Cultural Office in Atlanta threw the ceremonial first pitch, symbolizing the growing influence of the Taiwanese community in the U.S. South. Blending sports and cultural exchange, the event united the community and highlighted MJSTASE's mission to promote technology, foster cultural connections, and engage with the local community.

09/07/2025 「影響力之聲」論壇圓滿舉行　聚焦女性在政策與醫療領域的領導力
"Voices of Impact" Forum Showcases Women's Leadership in Policy and Healthcare

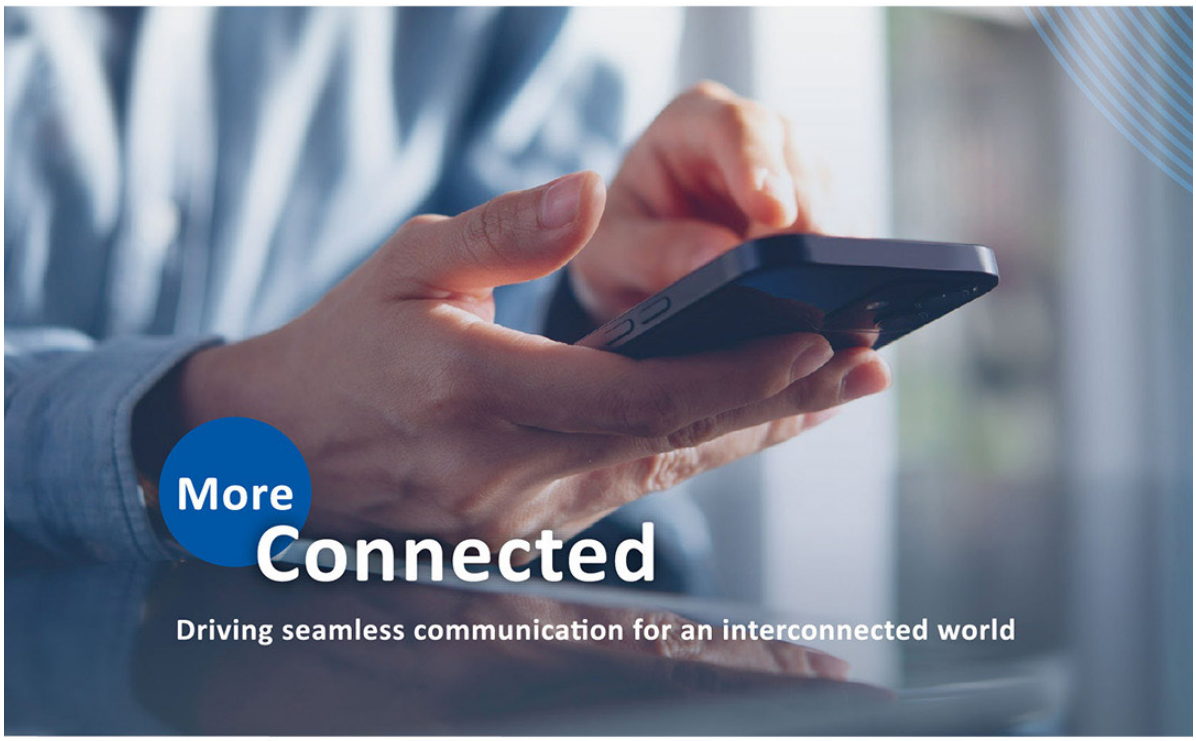

2025年9月7日下午，「影響力之聲：女性如何在政策與醫療領域引領改變」論壇於亞特蘭大華僑文教服務中心舉行，由世界華人工商婦女企管協會亞特蘭大分會主辦、美東南區玉山科技協會協辦，吸引近百位參與。講者包括喬治亞州眾議員候選人Michelle Kang與前Emory Johns Creek Hospital執行長Marilyn Margolis，分別分享女性在公共事務與醫療領域的領導經驗。論壇強調女性發聲、同理心與創新，並促進僑界對女性領導力的重視與支持。

駐亞特蘭大台北經濟文化辦事處林主恩處長出席「影響力之聲：女性在政策與醫療中的變革領導」論壇並致詞，肯定女性在公共政策與醫療領域中的貢獻，並鼓勵僑界持續參與公共事務、深化社區影響力。

On the afternoon of September 7, 2025, the forum "Voices of Influence: How Women Lead Change in Policy and Healthcare" was held at the Atlanta Chinese Cultural and Educational Service Center. Organized by the Atlanta Chapter of the Global Federation of Chinese Business Women and co-organized by the Monte Jade Science and Technology Association Southeastern U.S., the event drew nearly 100 participants. Featured speakers included Georgia State House District 99 candidate Michelle Kang and former Emory Johns Creek Hospital CEO Marilyn Margolis, who shared their leadership experiences in public affairs and healthcare. The forum highlighted women's voices, empathy, and innovation while strengthening community support for female leadership.
